My apologies, I didn't realize you were waiting on comments from me. I'll call you on Monday to discuss.

Hey Jeremy, no comment? I had hoped to hear something from you on your thoughts regarding the last three months.

In the absence of any comments, I do need direction on how to close out the account. I assume .uk oh all transfer it back to Midland?

Based on the recent account statements, the balance has reduced from 25099 to 19131, a 24% reduction in 3 months.

A loss of almost 2000 per month a far cry from expectations . to meet the original annual expectations, you would need to exceed previous average expectations for every month for the rest of the year and that does not seem likely.

When we have gains they are not maximum gains, yet every loss has been a maximum loss. I am afraid I don't see the value in your option selection process.
